Frontend Developer ITHS 2022–2024

Studies in frontend development at the IT college ITHS where I have learned the basic languages HTML, CSS as well as programming languages such as Javascript and Typescript. In addition to this, I have studied frameworks such as Vue.js and React. At the moment I am looking for an internship to complete my studies. Take a look at my projects on [Github](#) or in my [Portfolio](#) to see what I have been working on lately.

Previous Work Experience

Perido / Klarna

2019/12 – 2022/09

Consultant at Klarna through the staffing agency Perido, then as a full-time employee at Klarna. Worked on the Merchant Operations domain as a Service delivery specialist. My task was to map bank transactions, or loans, made with the Klarna bank card and create business profiles within the Klarna app. Together with a small team, we updated and maintained existing companies that have Klarna's payment solutions and we act as technical support for our colleagues who need help with "branding"/marketing their business customers.

Internship at the Ministry of Enterprise and Innovation 2018/09–2019/02

Internship in the unit for regional growth and EU cohesion policy. During my internship at RTS, I had tasks of a case manager. This included administrative tasks such as keeping records and taking notes on behalf of the unit. But I also got to try on creating reports, leading projects and support drafting minor government decisions.

ICA / Willys

2015/08–2019/12

Late night store supervisor (or so-called Jour) at ICA Fältöversten, Aspudden and at Willys Mariahallen. A job I have had alongside my studies for several years. Tasks varied but generally I was responsible in the evening for overseeing the store's offering, general quality and customer service. Personal responsibility is important to be able to perform this profession well, which is what I brought with me from this job.

Additional Education

Bachelor's degree in Economics, Stockholm University

Bachelor's thesis was about the economic burdens that EU countries with higher debt ratios bear.

Bachelor's degree in Political Science, Stockholm University

Bachelor's thesis about EU and China's, former, ambitions with its partnership.

Volunteer & project work

Volunteer and English teacher in Argentina Buenos Aires for the organization Asociación civil voluntario global 2015/06.

Writer & correspondent for the Association for Development Issues, FUF, which I engaged in voluntarily during my study years.
